Notice of Allowability	09/899,270	MASLOWSKI, EDWARD M.
	Examiner	Art Unit
	Niki M. Eloshway	3727
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.		
1. This communication is responsive to the amendment filed 5/9/05.		
2. The allowed claim(s) is/are <u>1-11</u> .		
3. The drawings filed on 7/6/01 are accepted by the Examiner.		
4.

Art Unit: 3727

## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a reusable plastic drum having a lid with an inner wall, outer wall, upwardly protruding lip, an cover flange, wherein when the lockband is tightened on the drum and cover flanges, the lid is drawn downwardly and the outer wall is compressed radially inwardly to cause the base surface to be pressed against the upper chine with sufficient pressure to cause the base surface to directly engage the chine.

The prior art reference of Hammes et al. (U.S. 4,177,934) is similar to the present invention because it teaches a plastic drum with a lid having a panel an inner wall extending upward from the panel, an outer wall with an upper portion above the panel and lower portion below the panel, an upwardly protruding lip, a concave base surface and a cover flange. However, Hammes et al. does not teach a drum body with a convex upper chine that directly engages the concave base surface. If the Hammes et al. reference was modified by a secondary reference to teach a convex upper chine, there would still be no teaching of direct engagement of the upper chine and base surface as the locking band is tightened to downwardly draw the plastic lid and radially inwardly compress the outer wall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. In order to reduce pendency and avoid potential delays, Technology Center 3700 is encouraging FAXing of responses to Office Actions directly to (703)872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a USPTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX will be promptly forwarded to the examiner.

Art Unit: 3727

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Niki M. Eloshway whose telephone number is (571) 272-4538. The examiner is in the office on Thursdays and Fridays.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
